Simply select a text style by name & number, and we'll create an image for your review customized with your names!

Any of the above designs can include the date on the bottom, but because the angle at which we project an image is always different from venue to venue, the results aren't always predictable. Sometimes an extra text line can look stretched or misshapen. If it's preferred, we'll do our best to include the date, but cannot guarantee exact results of any projection. For best results, the placement of DJ setup directly in front of dance-floor or opposite wall (projection surface) is important. Please ensure your venue has planned for the DJ setup to be directly in front of the dance-floor. Don't hesitate to contact us at with any questions!
